

ABOUT US

AVCOR Construction, LLC is an Arkansas licensed general contractor specializing in Federal Government contracts. Since 2017, AVCOR has performed over 50 federal contracts as the Prime Contractor with project values ranges in value from less than \$250K to more than \$10M. AVCOR's experience is in a wide variety of construction projects, including military installations, warehouse & maintenance facilities, hospitals, laboratories, secure federal campuses, civil projects, utilities, historic buildings, educational buildings & mission critical infrastructure improvements.

AVCOR was founded on the principle of building lasting relationships of trust, mutual respect and accountability with our government stakeholders and trade partners. Our team's ability to navigate the nuances of federal contracting, combined with our dedication to excellent customer service, safety and quality construction, helps AVCOR provide the best value to our customers allowing the Agency to focus on Mission Execution.
